

Lilliput Lane Nursery

The Little Nursery for Little Learners

Supervisions

At **Lilliput Lane Nursery** we implement a system of supervision for all of our staff following their induction and probation period. Supervision is part of the nursery's overall performance management system and promotes a culture of mutual support, teamwork and continuous improvement. It encourages the confidential discussion of sensitive issues including the opportunity for staff and their managers to:

- Discuss any issues – particularly concerning children's development or well-being and any child protection concerns
- Identify solutions to address issues as they arise
- Receive coaching to improve their personal effectiveness
- Develop their own skills in order to progress in their role
- Discuss any concerns relating to changes in personal circumstances that might affect an individual's ability to work with children.

The frequency of supervision meetings are bi-monthly according to individual needs. A template agenda is used in all meetings to ensure consistency across the nursery. This clearly sets out who does what and the timeframe, i.e. what the manager is responsible for and what the practitioner needs to do.

There should always be something that a member of staff can discuss e.g. a particular child's development, strengths or concerns. However, if there are times where staff may be struggling to identify areas to discuss in a supervision we will ask them to identify three things they have enjoyed about their job/done well since the last supervision and one thing they have least enjoyed/requires further improvement. They will be asked to complete this prior to supervision (as set out in their responsibilities).

There may be times when supervision may be increased for members of the team as and when needed, i.e. if they have particular concerns about a child or if they are going through personal circumstances at home, for new starters, staff returning after long-term illness, on request from staff.

It is the responsibility of the manager to plan time to ensure that all staff have supervisions. At Lilliput Lane Nursery supervision is carried out by the nursery Deputy Manager. If for any reason a supervision is cancelled a new date will be rearranged within 7 working days.

All members of staff responsible for carrying out supervisions are trained and supported prior to carrying these out.

The Little Nursery for Little Learners

Supervision meetings also offer regular opportunities for members of staff to declare any criminal offences since their last PVG registration or any reason or incapability to work with children. This is recorded as a declaration on the individual member of staff's supervision form and appropriate action is taken, where applicable, in line with the safeguarding/child protection and disciplinary procedure.

Staff have a responsibility to ensure that they are available for supervision meetings and that the necessary paperwork is complete. Information shared in supervision sessions is confidential. The supervision process will be evaluated once a year through staff feedback and is used as part of the overall performance monitoring system at the nursery.

Covid-19

Staff will all have a supervision/review meeting prior to returning to work, this may take place over the phone or video call.

Regular supervision/review meetings will then take place to monitor staff well-being and any concerns during this time.
